

Introducing **AWARD-WINNING** LESSEAU, the worlds first automatic soap dispenser with sustainable bar soap **100% free of (micro)plastics and vegan.**

LESSEAU's all natural vegan bar soap – compact in size, rich in moisture, fights waste and reduces carbon footprint with it's 100% plastic free packaging made from recycled cardboard. Plus it fights the wasteful cycle of liquid soaps being a hygienic alternative with no expiry.

- All Natural Bar Soap**
 All natural, 100% vegan-friendly and naturally moisturising.
- Reduced Carbon Footprint**
 Reduced carbon emissions from transportation and manufacturing.
- 100% Plastic Free Packaging**
 Packaging made from recycled cardboard.
- Up to 95% Water Reduction**
 Soap bars made from less than 5% water.
- No Touch Dispenser**
 Extra hygienic thanks to its automatic hands-free sensor.

Say **GOODBYE** to liquid soap and embrace the efficiency of natural bar soap

Liquid hand soaps consist of up to 95% water causing environmental nightmares in transportation and storage space. Our sustainable bar soap not only trims down carbon emissions with less than 5% water composition - its compact size makes it ergonomic and light to handle.

LESSEAU brings a **ONE-OF-A-KIND** solution with its **100% plastic-free packaging**

Ditch liquid soaps packaged in single-use plastics, which requires chemicals to remain effective, and bulk fill hand soaps that are prone to bacteria build-up.

Opt for our 100% plastic-free solution – a compact bar soap that not only combats bacteria but also takes the lead in sustainability. This hygienic alternative, without an expiry date, stands alone as the most sustainable choice.

VERSATILE PRODUCT RANGE

Free-standing Soap Dispenser

No-touch automatic soap dispenser is durable and extra hygienic thanks to the hands-free sensor.

Wall-mount Soap Dispenser

No-touch, rechargeable hand soap dispenser in a choice of white or black.
